

Annual Report 2012-2013

Changing lives by surrounding children with the love of family

Research Says:

Children with a parent in prison are more likely than their peers to end up incarcerated.

2.5 million children have one or both parents in prison. More than **100,000** of those children live in Georgia.

Children of the incarcerated are at high risk of emotional, behavioral, and developmental challenges. Many struggle academically.

You Said: *All children can succeed.*

Here's how you helped Foreverfamily children succeed in 2012-2013.

Served **128** children and teens through after school, mentoring, family visitation, and summer camp programming.

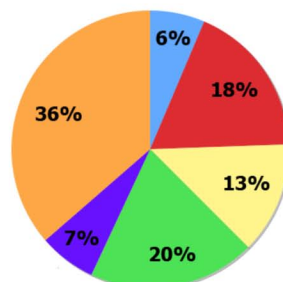

Made **520** face-to-face connections of children with their incarcerated mothers through monthly visits to Georgia's prisons.

Promoted **97%** of participants to the next grade and helped students earn an average GPA of **3.28**.

You helped students attend **Clayton State University, Georgia Perimeter College, Fort Valley State University**, and **Lane College**, graduate from **Savannah State University**, and start their lives as economically self-sufficient adults making positive contributions to our shared community.

Thank you for the hope you inspired and the lives you changed through your **gifts** and **service** this year.

- Federated Funds
- Foundations/Grants
- Contracts/Fee for Service
- Individuals
- Corporate Contributions
- In-Kind Support

211 community volunteers served **1,750** hours.
